

Nerlove, Marc

“Returns to Scale in Electricity Supply” (1963), Chapter 7 of *Measurement in Economics*, C. Christ et. al. eds.

The original data is printed in the published paper.

The data set contains data on 145 American electric companies.

The variables are

Cost	Total Cost (million \$)
output	Output (billion kwh)
Plabor	Unit price of labor (wage rate, \$/hour)
Pcapital	Unit price of capital (index)
Pfuel	Unit price of fuel (cent/million BTU)
